EVERYTHING YOUR JEWELLERY BUSINESS NEEDS, IN ONE PLACE

JewelDesk helps jewellery businesses manage their daily operations digitally — from inventory and sales to customers, reports, custom orders, and workshop team management.

THE CHALLENGE WITH TRADITIONAL JEWELLERY MANAGEMENT

Jewellery retail is complex: fluctuating bullion rates, multi-karat purities, unrecorded old gold exchanges, karigar wastage discrepancies, and scattered paper registers create errors, revenue leakage, and customer trust issues.

THE JEWELDESK SOLUTION

A unified, intuitive platform designed specifically for the Indian jewellery industry. JewelDesk replaces messy paperwork with automated pricing, instant stock clarity, digital GST invoicing, and strict accountability.

Centralized Management

Unify counter sales, stock vaults, customer credit, and karigar workshops in one place.

Faster Daily Operations

Auto-calculate metal rates, making charges, and taxes in seconds for rapid billing.

Precision Inventory Visibility

Real-time clarity on gross weight, net weight, purity, stone weights, and piece counts.

Organized Customer Records

Complete customer directory, purchase histories, PAN/GSTIN records, and pending dues.

Easier Sales & Old Gold

Accurately assess customer old gold exchanges and deduct value directly from bills.

Useful Business Reports

Instant analytics for Today, This Week, Month, and Custom Date Ranges with payment splits.

Digital Document & Invoices

Generate professional, GST-compliant PDF tax invoices and share via WhatsApp instantly.

Better Team Control

Role-based permissions (Admin, Sales, Cashier, Manager) protect margins and settings.

JewelDesk • Smart Jewellery Retail Management Software

Core Value Proposition & Capabilities

Page 02 / 08

KEY FEATURES AT A GLANCE

Purpose-built tools designed for the real workflows of fine jewellery showrooms and workshops.

FEATURE 01

Inventory & Stock

Manage Gold, Silver, Platinum and Diamond stock with gross weight, net weight, and 6-digit HUID tracking.

FEATURE 02

Sales & Billing

Record counter sales with auto metal rate calculations, making charges (per gram or flat), and itemized GST.

FEATURE 03

Old Gold Exchange

Weigh customer old jewellery, assess purity, compute scrap value, and deduct credit directly on the invoice.

FEATURE 04

Customer CRM

Centralized client records, purchase history, outstanding customer dues, and high-value PAN compliance.

FEATURE 05

Live Bullion Rates

Real-time gold and silver market rate integration (24K, 22K, 18K) to ensure uniform counter pricing.

FEATURE 06

Custom Orders

Record bespoke customer design requests, target weights, advance payments, and committed delivery dates.

FEATURE 07

Karigar Workshop

Track raw metal issued to artisans, received finished ornaments, scrap returns, and wastage reconciliation.

FEATURE 08

Sales Reports

View business performance for Today, Week, Month, or Custom Date Ranges with payment method breakdowns.

FEATURE 09

WhatsApp Receipts

One-click customer thank-you and digital invoice sharing directly to client WhatsApp for modern service.

FEATURE 10

Team & Security

Granular role-based permissions (Admin, Manager, Sales, Cashier) to protect sensitive margins and settings.

PRECISION INVENTORY & JEWELLERY STOCK MANAGEMENT

"Know what you have, where it is, and what is moving — without depending on scattered registers or spreadsheets."

✓ Three-Tier Weight Accounting

Track Gross Weight, Stone Weight, and Net Metal Weight down to milligram precision (0.001g) on every individual piece.

✓ Multi-Karat & Metal Segregation

Complete categorization for 24K, 22K, 18K, 14K Gold, 925 Sterling Silver, Platinum, and Bullion coins/bars.

✓ BIS Hallmark & 6-Digit HUID Tracking

Record and search unique 6-character Hallmark Unique Identification codes for complete regulatory compliance.

✓ Flexible Making Charge Calculation

Configure making charges either as per-gram rate (₹/g) or flat item amount (₹/pc) based on design complexity.

✓ Stock Movement & Audit Trail

Every stock addition, counter display transfer, sale deduction, or customer return is logged with exact timestamp.

✓ Bulk Catalog CSV Import

Easily transition existing spreadsheets into JewelDesk in minutes using our one-click CSV stock import utility.

SALES, INVOICING & OLD GOLD SETTLEMENT WORKFLOW

"Make your sales process more organized and keep transaction information easy to access."

1 Select Customer → 2 Pick Item → 3 Auto Price & Making → 4 Old Gold Deduction → 5 Split Payment → 6 PDF & WhatsApp

Automatic Rate & Making Computations

No manual calculation errors. Formula applies Live Rate × Net Weight + Making Charges + Stones + GST automatically.

Integrated Old Gold Exchange & Buyback

Enter customer old gold weight and estimated purity; credit value is computed and deducted directly from the bill total.

Multi-Tender Payment Splitting

Support customers paying partially via Cash, UPI (GPay/PhonePe), Card, and Bank Transfer on a single invoice.

Instant WhatsApp Thank-You Link

Send polite purchase confirmation messages and invoice details directly to customer WhatsApp in one tap.

Branded PDF Tax Invoices

Print crisp GST invoices with your shop logo, GSTIN, complete itemized tax breakdown, and terms of service.

UNDERSTAND YOUR BUSINESS. BUILD LASTING CUSTOMER TRUST.

"Use organized data and instant reports to gain clear visibility over showroom performance and customer credit."

Customer Relationship Hub

- **Centralized Directory:** Store customer mobile numbers, addresses, and family preferences in one digital book.
- **PAN & GSTIN Recording:** Easily log customer PAN card details for high-value sales compliance over regulatory limits.
- **Purchase Histories:** View every past sale, invoice copy, and date of purchase when customers return.
- **Credit & Dues Tracking:** Clear ledger of outstanding balances with instant balance payment recording.

Flexible Sales Reports

- **Today's Counter Summary:** Review today's transactions, cash collected, and pending receipts at closing.
- **Periodical Trend Analysis:** Filter reports by This Week, This Month, or Any Custom Date Range.
- **Category Velocity:** Identify which categories (bridal sets, rings, chains) are generating top revenue.
- **Tender Breakdown:** Exact breakdown of Cash vs. UPI vs. Card settlements for daily bank deposits.

Real-Time Business Visibility

- **Live Cockpit Dashboard:** Instant access to revenue, stock valuation, and receivables in a single view.
- **Low Stock Early Warning:** Get alerted when popular design codes drop below minimum counter threshold.
- **Auditable Transaction Trails:** Prevent discrepancies with clear tracking of every issued bill.
- **Clean Exportable Records:** Export reporting datasets for monthly accounting reviews without friction.

BESPOKE ORDERS, WORKSHOP TRACKING & TEAM ACCESS

"Give your team the right access while keeping workshop operations and custom jewellery orders organized."

Custom Jewellery Orders

- **Bespoke Client Requests:** Record specific customer requirements, metal preference, target purity, and target weight.
- **Design Reference Notes:** Store detailed design instructions and customer specifications directly on the order.
- **Delivery Commitments:** Set target delivery dates and track customer order status in real time.
- **Order Progression:** Simple pipeline tracking from Order Placed → In Workshop → Ready for Pickup → Delivered.

Karigar & Workshop Tracking

1. Metal Issue

Weigh and log raw gold or silver given to specific artisans.

2. Finished Goods Intake

Weigh finished jewellery piece upon return.

3. Wastage Reconciliation

Calculate returned scrap and exact wastage (ghat) percentage.

4. Making Settlement

Track making charges earned, advances given, and balance dues.

Role-Based Team Access

Safeguard profit margins, bullion price adjustments, and company settings by granting staff only the permissions they require.

Predefined Business Roles:

Admin Manager Sales Executive Cashier
Inventory Manager Accountant Support

- **Granular Control:** View, Add, Edit, Delete permissions per module.
- **Branch Security:** Assign staff members to specific showroom locations.

BUILT FOR THE MODERN JEWELLERY BUSINESS

The smart, reliable, and modern platform to elevate your jewellery showroom operations.

100% Jewellery Focused

Built for grams, karats, stone deductions, HUID tracking, live bullion rates, and old gold exchange.

Fast & Simple to Learn

Clean, modern interface designed for rapid daily showroom counter use with zero complicated training.

No Expensive Hardware

Runs smoothly on standard PCs, laptops, tablets, and smartphones without expensive proprietary POS machines.

Progressive Web App (PWA)

Install directly to your PC desktop or smartphone for lightning-fast counter billing and offline resilience.

Data Privacy & Control

Multi-tier role permissions ensure cashiers and sales staff only see what they need to see.

Workshop to Counter

Seamless end-to-end flow connects your karigar job work directly to your inventory and billing counter.
